PROFILE

Software developer with professional experience in web development and UX/UI at Fraqtory and as Co-Founder of CrestPoint Tech. Focused on building responsive web applications with React, TypeScript, and Next.js, from interface design to implementation. Completing a Master's in Computer Science and Engineering at FCT NOVA; thesis submitted, defence pending.

EXPERIENCE

Co-Founder | Software & UX/UI Developer — May 2026 – Present

CrestPoint Tech | Montijo, Portugal

- Co-founded a technology company delivering software development, web development, UX/UI design, and digital solutions for SMEs.
- Design responsive interfaces and user experiences in Figma, translating business and client requirements into practical digital products.
- Contribute to frontend and full-stack development of websites and web applications from concept through implementation and deployment.
- Work directly with clients on requirements, feedback, technical decisions, project planning, and delivery.

Web Developer — May 2025 – Feb 2026

Fraqtory | Almada, Portugal

- Contributed to the development and maintenance of web applications in a professional software development environment.
- Implemented and improved responsive, user-facing interfaces with a focus on usability and maintainable code.
- Collaborated with developers and other team members to deliver features, resolve issues, and improve existing functionality using Git-based workflows.

SELECTED PROJECT

Goal Tracker | Full-Stack Personal Project

- Built a goal-tracking web app for goals, progress, and user activity; designed extensions for authentication, reminders, analytics, and Google Calendar.
- Planned a Docker-based service architecture, with microservices/Kubernetes and mobile access as future iterations.

EDUCATION

Integrated Master's in Computer Science and Engineering — 2020 – 2026

NOVA School of Science and Technology (FCT NOVA) | Almada, Portugal

- Master's thesis: "The Challenges in Learning and Teaching Software Modelling" — submitted; defence pending.
- Qualitative research into challenges faced by students and lecturers in learning and teaching software modelling in higher education.
- Erasmus+ exchange: Wrocław University of Science and Technology, Poland | Oct 2025 – Feb 2026.

TECHNICAL SKILLS

Development: TypeScript, JavaScript, React, Next.js, Node.js, NestJS, HTML/CSS, REST APIs
Data & Infrastructure: PostgreSQL, Prisma, Redis, Docker, Git
Design & Engineering: Figma, UX/UI Design, Responsive Design, Requirements Analysis, UML, Software Modelling, Microservices, Distributed Systems
